WEALTH CREATION THROUGH DESIRE

Money and wealth is one of the biggest drivers and motivators for human beings. We focus on it, it causes stress, we earn it, we waste it, most things in life require money - money is one of the biggest consumers of our thoughts and actions when trying to earn it. We base our decisions on money, we place such a huge emphasis on what something is worth financially and how much we should be paid. We get envious when someone else earns more than us, money drives a wedge through family, friends, relationships and humanity. Greed, corruption and power are all created from wanting more money no matter the cost.

“Have you ever said, I want more money? A want, comes from a lack, therefore you are actually getting what you want from the universe, a lack of money”

If you focus on never having enough money, then congratulations, what you are focussing on you are getting. You are focussing on not having enough and consequently the universe is giving you this, not enough.

“If you make your decisions on wealth you will forever be poor”.

“If you add value – you get paid, add more value, you get paid more, add immense value, become wealthy”.

When you read this, you may think, its easy to say that when you have money, however, making your life about money and allowing it to be your main motivator in life will only create stress, frustration, disappointment and mediocrity – is this true for you right now?

“The more you serve, the more value you bring to people’s lives – the more wealth and abundance you create”.

Money in isolation is nothing, money, with a heart centred approach, mixed with abundance, passion, energy and humility is one of the most amazing gifts in this world.

“coming from a place of abundance verse scarcity will ensure you are always wealthy”

VALUE ADD

I should be paid more – how often have you stated this? Do you think that you should be paid more?

The truth is, you are being paid based of the value that you currently add. If you work in a hierarchical organisation, where you get paid on the position that you hold, then, you will only get paid more if you get promoted or a raise in salary. Therefore you are reasonably limited.

However in commissions type role, (sales) or as an entrepreneur or businessman/businesswoman - your income is not capped at all – therefore, if you want to earn more money, add more value.

Lets say you currently earn \$50,000 and \$150,000 is your financial freedom yearly figure – then, what you need to do is triple the value you are currently providing.

So, how do I triple my earnings is what you are wondering? Firstly identifying what is required to add more value, it may be:

- *I need to learn more about my role / organizational role*
- *I want to transition into a managerial role – therefore I need to study*
- *Gain experience in a particular area*
- *Invest in personal growth*
- *Work on confidence and time management*
- *Become someone who leads a team*
- *Become more efficient*
- *Become an expert communicator and team leader*
- *Adopt empowering rituals to optimise self*
- *Reduce stress*
- *Who do I need to become to earn more money (confident abundant, happier..etc.)*

Now you have realised, that, you need to triple the value you are currently providing in order to obtain your financially free goal of \$150,000, the next step is to start doing, in order to triple your value.

There are trillions of dollars in the world, and it is not reserved for anyone, money is a transactional relationship between value add and wealth.

Stop overcomplicating money, stop believing you cannot obtain or access it.

Language like you have it, see it in your possession – as you have learnt, if you can't language it - it doesn't exist, if you can't see it you can't obtain it.

“Start living like you already have it”

WEALTH MANIFESTATION

Desiring wealth through a wealth model built upon leadership, love, commitment, abundance, consistency and action will lead you to a place of wealth, balance and fulfilment. Take this wealth model and apply the following manifestation process and wealth will flow to you through numerous ways...(the template is below)

How:

1. Fix your mind on the exact amount of money you desire. It is not enough to say 'more', but, you need to define the exact amount, write it out, see the amount and speak it exactly as it is.
2. Identify exactly what it is that you will do in return for the wealth you are desiring. From nothing comes nothing, be specific about your offering.
3. Identify the exact date in which you will acquire this wealth, don't say now, as you have done nothing to create it, so be realistic aligned to your action.
4. Create a definitive plan (goals broken down into a weekly commitment) and begin now, don't wait for your wealth. Put your plan in motion, and start taking action.
5. Write out a clear concise statement of the amount of money you intend to acquire. State what you intend to give in return for the money, and describe clearly the plan through which you intend to accumulate.
6. Read your written statement aloud, twice daily, one just before retiring at night, and once after rising in the morning. As you read, SEE, FEEL and BELIEVE yourself already in possession of the money.

Exercise:

7. Go into a quiet spot where you will not be disturbed or interrupted. Close your eyes and repeat out aloud the written statement of the amount of money you intend to accumulate, the time limits for its accumulation and a description of service or offering you intend to give in return for the money.
8. As you carry out these instructions, see yourself already in possession of the money.
9. For example, suppose you intend to earn \$100,000 by the 1st of January, one year from now, and you intend to transform people lives in return for this money then your manifestation should be similar to the below example:

By the 1st of January next year I will have in my possession \$100,000, which will come to me in various amounts from time to time during the interim. In return for this money I will give the most efficient service of which I am capable, rendering the fullest possible quantity and the best possible quality of service - transforming lives.

I believe I will have this money in my possession. My faith is so strong that I can now see this money before my eyes, I can see notes of money flying through my house doors and through my windows, I can see myself bathing in it. I can touch it with my hands. It is now awaiting transfer to me in the proportion that I deliver the service I intend to render in return for it. I am awaiting a plan by which to accumulate this money, and I will follow that plan when it is received.

Read your written statement aloud, twice daily, one just before retiring at night, and once after rising in the morning. As you read, SEE, FEEL and BELIEVE yourself already in possession of the money.

It is crucial that you follow these steps, especially number 6. You must be able to smell the money, see it falling from the sky, see it surrounding you like leaves on an autumn day, feel the touch of it.

By following the wealth model and applying it to these 6 steps – it will make you become so thoroughly saturated with the desire for money that you can see yourself already abundant and in possession of true wealth. Combined with your human commitment to change people's lives, now, you have created the ultimate vehicle to change more people's lives through experience, productivity, abundance and freedom.

“start developing a millionaire mindset and abundance will flow through deliberate action and focus..”

FINANCIAL FREEDOM

I have asked thousands of people, what do you want most in life? The majority of people state – ‘financial freedom’. My next question is always – how much money do you need to be financially free – what specific number per year, \$100,000, \$200,000, \$400,000? And, more often than not, the reply is, ‘I don’t know, I have never really thought of it before’.

There is a fair chance that this is the first time you have been asked this question, or the first time you have thought about how much money per year would allow you to become financially free.

“So, what number is financial freedom for you”?

Do you believe you can earn this number?

Right now, you may or may not believe you can earn your financial freedom number, however, after this lesson you will absolutely believe in your ability to obtain it.

How much money do you earn now, \$30,000, \$40,000, \$50,000? Lets say you currently earn \$40,000 – and your financial free number was \$100,000.

Right now, you currently know how to earn \$40,000 as you are currently earning that. Therefore, if you want to earn \$100,000 you need to learn how to earn it. If everyone knew how to earn \$100,000 they would be, but this is not the case.

You do not know how to earn \$100,000 yet, however, once you learn this, you will liberate yourself from your current scarcity mind-set and start to transition into abundant living. What is really awesome is that we have taught literally hundreds of people how to create this mind-set, and, once you learn how to, the universe has a strange way of ensuring you receive part of the wealth that is existent in the universe, you just need to learn how and create a plan like detailed in the wealth manifestation template and add more value as described above – this is your learning and earning phase.

CONCLUSION

By the end of this learning, there are no doubt many aspects of wealth that excite you. You will have also identified that wealth is not reserved for anyone in particular, but those who chose to form a positive relationship with it, and those that are committed to adding value.

Do not concern yourself with the 'how' yet, but rather start by identifying your financial freedom number, and learn who you need to become to earn this number. From here as you progress through the learnings within the human blueprint, the how will become apparent, it is then that you must commit to this path.

Choose to focus your time, energy and attention towards those areas in which truly inspire you, that will provide you with what you need, want and require to live an abundant life and that serve you in becoming your greatest infinite self.
